

JAEGER-LECOULTRE IN MARVEL STUDIOS' *DOCTOR STRANGE IN THE MULTIVERSE OF MADNESS*

THE MASTER ULTRA-THIN PERPETUAL CALENDAR MEETS THE MASTER OF THE MYSTIC ARTS

Jaeger-LeCoultre's Master Ultra-Thin Perpetual Calendar hits the big screen again, in the highly anticipated supernatural adventure Marvel Studios' *Doctor Strange in the Multiverse of Madness*, releasing in U.S. theaters May 6, 2022, directed by Sam Raimi and starring Benedict Cumberbatch.

Originally introduced in Marvel Studios' *Doctor Strange* (2016), the watch continues to play an intrinsic part in the story of the title character played by Benedict Cumberbatch, a long-time Friend of Jaeger-LeCoultre. An essential reference at several key points during Doctor Strange's journey into the mystic arts, the watch serves as a tangible reminder of meaningful events from the character's past and present.

The Jaeger-LeCoultre Master Ultra-Thin Perpetual Calendar embodies a serene physical presence, traditional roots, and steady measurement of linear time. The perpetual calendar seems a particularly appropriate complication, with its display of multiple timelines on the dial and its ability to indicate the correct date over the course of many lifetimes. The sober elegance of the Master Ultra-Thin Perpetual Calendar and its timeless classicism provides a form of emotional anchor in a world of constant change.

Measuring 39mm x 9.2mm and offered in pink gold or steel, the Master Ultra-Thin Perpetual Calendar is the epitome of refinement and contemporary elegance. Its finely balanced dial features a moon-phase display at 12 o'clock and calendar indications on three sub-dials – each slightly recessed to add a subtle note of visual complexity. The movement, Jaeger-LeCoultre Calibre 868, was entirely developed and produced in-house and features fine-watchmaking decoration such as Côte de Genève striping, perlage (circular graining), and polished and bevelled edges. Through the transparent sapphire case-back, an open-worked pink gold winding rotor allows a clear view of the movement. A highly complex mechanism, the perpetual calendar takes into account the irregularities of the calendar, automatically adjusting for months of different lengths and for leap years. So long as it is kept wound, a perpetual calendar needs no adjustment until 2100 and then not for another 400 years.

About “Doctor Strange in the Multiverse of Madness”

In Marvel Studios’ “Doctor Strange in the Multiverse of Madness,” the MCU unlocks the Multiverse and pushes its boundaries further than ever before. Journey into the unknown with Doctor Strange, who, with the help of mystical allies both old and new, traverses the mind-bending and dangerous alternate realities of the Multiverse to confront a mysterious new adversary.

“Doctor Strange in the Multiverse of Madness” stars Benedict Cumberbatch, Chiwetel Ejiofor, Elizabeth Olsen, Benedict Wong, Xochitl Gomez, with Michael Stühlberg, and Rachel McAdams.

The film is directed by Sam Raimi, and Kevin Feige is the producer. Louis D’Esposito, Victoria Alonso, Eric Hauserman Carroll, Scott Derrickson and Jamie Christopher serve as executive producers. The screenplay was written by Michael Waldron. “Doctor Strange in the Multiverse of Madness” releases in U.S. theaters on May 6, 2022.

Jaeger-LeCoultre: HOME OF FINE WATCHMAKING SINCE 1833

Located in the serene setting of the Vallée de Joux, our Home offers a unique sense of belonging. It is here, inspired by the exceptional landscapes of the Jura Mountains, guided by an unquenchable inner fire, that La Grande Maison gets its soul. With all crafts under one roof within the Manufacture, watchmakers, engineers, designers, artisans work together to give birth to fine watchmaking creations. Driven by a compelling energy and a spirit of collective invention that daily inspires the commitment of each and every member of our family, we cultivate our understated sophistication and technical creativity. This same spirit has powered the creation of more than 1200 calibres since 1833 and made Jaeger-LeCoultre the Watchmaker’s Watchmaker.
