

A NEW INTERPRETATION OF THE MASTER ULTRA THIN DATE

A GRADIENT BLUE-GREY DIAL COMPLEMENTS THE STEEL CASE

Key facts

- *Reimagining the elegance of the quintessentially modern dress watch*
- *A newly developed blue-grey dial colour adds a dash of contemporary style*
- *A robust and highly reliable calibre features fine watchmaking finishes*

Epitomising Jaeger-LeCoultre's philosophy of uniting technical virtuosity with timeless aesthetics, the Master Ultra Thin collection is enriched with a Master Ultra Thin Date model in steel, featuring a sunray dial in a new blue-grey colour.

The quintessential dress watch for modern aesthetes

Inspired by the Maison's remarkable legacy of ultra-thin watches – created from the early 1900s onwards – the Master Ultra Thin collection was conceived as the quintessential dress watch for the 21st century. With clean lines, polished surfaces and long, curving lugs, the understated design is a timeless and sophisticated expression of modernity, while the thin calibres attest to almost 200 years of continuous mechanical innovation and excellence within the Manufacture.

In full view through the transparent sapphire case-back of the Master Ultra Thin Date, Calibre 899 features fine decorative finishes, including Côtes de Genève, bevelling and blue screws. Designed, manufactured and assembled under one roof at Jaeger-LeCoultre's Manufacture in Le Sentier, it offers high reliability and a power reserve of 38 hours. Like every Jaeger-LeCoultre eligible model, the Master Ultra Thin Date model has successfully passed all certification tests as part of the development project through its 1000 hours testing protocol – this unique program provides internal certification tests that far exceed official chronometry tests.

A distinctive new dial colour

In a newly created blue-grey colour, the sunray dial of the Master Ultra Thin Date lends a distinctively contemporary air to the steel case. The dial design is a finely judged exercise in symmetry and balance. Anchored by the date display at 6 o'clock, it is highly legible and perfectly integrated in every detail. The shape of the elongated trapezoid indexes is echoed by the Dauphine hands, on which one facet is satin-brushed and the other polished, to create a visually intriguing play of light from different angles.

The Master Ultra Thin Date is presented on a black alligator strap which, along with its folding buckle, can be easily interchanged as the wearer wishes – thus adding even more versatility to this sophisticated, modern timepiece.

TECHNICAL CHARACTERISTICS

MASTER ULTRA THIN DATE

Case: Steel

Dimensions: 39 mm diameter x 7.8 mm thick

Calibre: Automatic Jaeger-LeCoultre Calibre 899

Functions: Hours, minutes, seconds, date

Power Reserve: 38 hours

Dial: Grey-blue sunrayed

Water resistance: 5 bar

Strap: Black alligator with interchangeable folding buckle

Reference: Q1238480

About Jaeger-LeCoultre – The Watchmaker of Watchmakers™

Since 1833, driven by an unquenchable thirst for innovation and creativity, and inspired by the peaceful natural surroundings of its home in the Vallée de Joux, Jaeger-LeCoultre has been distinguished by its mastery of complications and the precision of its mechanisms. Known as the Watchmaker of Watchmakers™, the Manufacture has expressed its relentlessly inventive spirit through the creation of more than 1,400 different calibres and the award of more than 430 patents. Harnessing 190 years of accumulated expertise, La Grande Maison's watchmakers design, produce, finish and ornament the most advanced and precise mechanisms, blending passion with centuries-old savoir-faire, linking the past to the future, timeless but always up with the times. With 180 skills brought together under one roof, the Manufacture creates fine timepieces that combine technical ingenuity with aesthetic beauty and a distinctively understated sophistication.
