

**JAEGER-LECOULTRE PRESENTS THE MASTER ULTRA THIN
MOON IN PINK GOLD WITH A GRADIENT BLUE DIAL
ELEVATING THE QUINTESSENTIAL DRESS WATCH TO A NEW LEVEL OF
CONTEMPORARY SOPHISTICATION**

With its streamlined design, elegant proportions and refined details, the Master Ultra Thin Moon embodies all the elements of the quintessential dress watch. For 2023, Jaeger-LeCoultre presents a new variation of the model in pink gold with a gradient midnight blue dial. The rich contrast between the sunray finish and intense gradient blue of the dial and the warmth of the pink gold case adds dramatic impact to the timeless elegance of the design, while accentuating its subtle beauty and refinement.

Perfectly matching the pink gold case, the dial indications enhance the aesthetic harmony of the design and emphasise the beauty of the dial's gradient colour. The hours are marked by long, tapered triangles, which, like the 'JL' logo, are applied; their shape is echoed by the Dauphine hands; and the minutes are indicated by applied golden dots.

The moon phase display adds further detail and refinement, its subtly textured finishes contrasting with the shiny blue of the sunray dial and the mirror-polished moon disc. Displaying the date on a ring around the moon-phase aperture maintains aesthetic harmony and creates a visual anchor for the main complication.

At 39mm in diameter, the case is well-balanced and perfectly proportioned; combining a mix of polished and brushed surfaces, it maintains a strong visual presence on the wrist even with its slim profile. An exact match for the blue of the dial, the alligator strap allows easy changes whenever the wearer wishes.

Developed and produced entirely in-house, the new-generation Calibre 925 is a high-performing automatic movement that provides 70 hours of power reserve. An 18-carat pink gold oscillating weight and refined decoration and finishing can be enjoyed thanks to the transparent case-back.

Perpetuating the Manufacture's long heritage of pairing sophisticated and high-performing in-house calibres with the aesthetic beauty of timeless case and dial designs, the combination of gradient-blue sunray dial and pink gold case elevates the discreet and classically elegant Master Ultra Thin Moon to a new level of contemporary sophistication.

TECHNICAL CHARACTERISTICS

MASTER ULTRA THIN MOON

Case: Pink Gold 750/1000 (18 carats)

Dimensions: 39mm diameter x 9.3 mm thick

Calibre: Automatic Calibre 925

About Jaeger-LeCoultre – The Watchmaker of Watchmakers™

Since 1833, driven by an unquenchable thirst for innovation and creativity, and inspired by the peaceful natural surroundings of its home in the Vallée de Joux, Jaeger-LeCoultre has been distinguished by its mastery of complications and the precision of its mechanisms. Known as the Watchmaker of Watchmakers™, the Manufacture has expressed its relentlessly inventive spirit through the creation of more than 1,300 different calibres and the award of more than 400 patents. Harnessing 190 years of accumulated expertise, La Grande Maison's watchmakers design, produce, finish and ornament the most advanced and precise mechanisms, blending passion with centuries-old savoir-faire, linking the past to the future, timeless but always up with the times. With 180 skills brought together under one roof, the Manufacture creates fine timepieces that combine technical ingenuity with aesthetic beauty and a distinctively understated sophistication.
